1. An undetermined number of soldiers, billeting equipment and 11 trucks were unloaded from 34 freight cars at the Uberswalde (N 53/V 08) railroad station at 7 a.m. on 26 August 1950. The troops allegedly went to the Schuetzen Kaserne.

2. On 26 and 27 August 1950 engineer troops in Rossau-Neinsdorf took down the telephone line running from the engineer training area to the barracks.

25X1

3. A workman in the barracks said that the engineer troops would move to another post in September 1950 and that all officers, dependents and craftsmen there would move to the settlement. The 1,500 troops who had previously been stationed in the barracks would return from Luckenwalde (N 53/Z 70) in the first week in September 1950. \*\*

\*\*   Comment. If the engineer units of the GOFJ leave Rossau in September 1950 it is not known whether they will leave only temporarily for field exercises or whether they will be assigned to a new post. It would not be reasonable for the former German engineer school with its highly suitable training grounds not to be occupied by engineer units. A previous report stated that the elements of the 7th Jds Tank Div would return to their post in Rossau on 5 October 1950.
